The Journal of Fuel Cell Technology

Contents

Foreword

- Sustainable Development through Hydrogen Energy and Fuel Cell
K. Okazaki - Tokyo Institute of Technology 1

Special Issue Development Status of Solid Oxide Fuel Cell

- Present Status of Solid Oxide Fuel Cell Development in NEDO Projects
K. Hosoi - New Energy and Industrial Technology Organization 6
- Solid Oxide Fuel Cell Demonstration Project
T. Ina - New Energy Foundation 12
- Research and Operation Result for Residential SOFC at Cold Region
R. Goto - Hokkaido Gas Co., Ltd. 18
- R&D of the Solid Oxide Fuel Cell Systems for Residential Cogeneration at Osaka Gas
R. Okura - Osaka Gas Co., Ltd. 23
- Development and Installation of SOFC System at JX Nippon Oil & Energy Corporation
A. Nanjo - JX Nippon Oil & Energy Corp. 29
- Development of Flatten Tubular Segmented-in-series Type SOFC
T. Ito - Tokyo Gas Co., Ltd. 33
- Development Status of Residential SOFC Cogeneration System
A. Ueno - TOTO Ltd. 37
- Current Status of SOFC Development at NGK SPARK PLUG CO., LTD.
M. Shibata, H. Ishikawa and K. Furusaki - NGK Spark Plug Co., Ltd. 41
- Development of Solid Oxide Fuel Cells at Murata
M. Iha, J. Harada and H. Takagi - Murata Manufacturing Co., Ltd. 45
- Development of Intermediate Temperature Solid Oxide Fuel Cell by KEPCO and MMC
T. Inagaki - The Kansai Electric Power Company., Inc.
H. Eto - Mitsubishi Materials Corp. 49
- Development of Extremely High Efficiency Power System, Solid Oxide Fuel Cell-Gas
Turbine Combined Cycle System
Y. Kobayashi - Mitsubishi Heavy Industries, Ltd. 56
- Development of Module Manufacturing Technology using Micro Tubular SOFC
Y. Fujishiro, T. Suzuki, T. Yamaguchi and M. Awano
National Institute of Advanced Industrial Science and Technology 63
- Development of SOFC System for Automotive Application at Nissan
K. Ikoma and H. Miwa - Nissan Motor Co., Ltd. 70
- Fe-Cr Ferritic Alloy ZMG232L Developed for SOFC Interconnects
N. Yasuda - Hitachi Metals, Ltd. 75
- Durability and Degradation of SOFC Stacks and Modules
T. Horita, K. Yamaji, H. Kishimoto, Manuel E. Brito and T. Shimonosono
National Institute of Advanced Industrial Science and Technology
H. Yokokawa - National Institute of Advanced Industrial Science and Technology,
Tokyo City University 80

Topics

- Hydrogen Gas Sensor using Nano-sized Manganese Dioxide
H. Koyanaka and Y. Ueda - Kyoto University 90
- Development of Palladium Alloy Hydrogen Separation Membrane Module
H. Ishibe - Nippon Seisen Co., Ltd. 95

■ Development of Nb-based Hydrogen Permeable Alloy Membranes with High Hydrogen Permeability and Strong Resistance to Hydrogen Embrittlement	H. Yukawa - Nagoya University T. Nambu - Suzuka National College of Technology Y. Matsumoto - Oita National College of Technology	99
■ Thin Fuel Cell with Monolithic Si Electrodes	M. Hayase - Tokyo University of Science ...	106
■ Development of Portable Fuel Cell for the Outdoors	T. Oda, Y. Kawaharazaki and T. Iwamoto - The Japan Steel Works, Ltd. K. Satou and Y. Fukatsu - Nissei Corp. ...	110
■ Efficient Utilization of Distributed Power Systems in Future and Renewable Energy in Cold Regions	Y. Hamada - Hokkaido University ...	115
■ Surface Structures of Electrocatalysts Enhancing the Activity for Fuel Cell Reactions	N. Hoshi, M. Nakamura, Y. Asaumi and S. Kondo - Chiba University	117
■ Development of Highly Durable Cathode Catalysts for PEFC by Coverage with Silica Layers	S. Takenaka and M. Kishida - Kyushu University. ...	124
■ Development of High Activity Electrocatalysts for Use in Direct Ethanol Fuel Cell	E. Higuchi - Osaka Prefecture University ...	130
■ Oxygen Diffusion Behaviors in Low-temperature Reduction Processes with Perovskite-structure Iron-oxide Thin Films	Y. Shimakawa - Kyoto University ...	135
■ Development of Single Chamber Solid Oxide Fuel Cell using $BaLaIn_2O_{5.5}$ Solid Electrolyte	T. Yao and M. Hibino - Kyoto University ...	140
■ Oxygen Storage Capability of Double-perovskite Manganese Oxide $BaYMn_2O_{5+6}$	T. Motohashi, T. Ueda, Y. Masubuchi and S. Kikkawa - Hokkaido University M. Takiguchi, T. Setoyama and K. Oshima Mitsubishi Chemical Group, Science and Technology Research Center, Inc. ...	145
■ Development of Evaluation System FC5300 Series for Button Type SOFC Cells	K. Yamada - Chino Corp. ...	149
■ Development of Fuel Cell Electric Vehicles at GM	M. Sato - General Motors Asia Pacific Japan Matthias Bork - General Motors Company ...	154
Introduction of Organization		
■ Introduction of Hydrogen Energy Test and Research Center	S. Kikukawa - Hydrogen Energy Test and Research Center ...	160
Report		
■ Report on 17 th Fuel Cell Symposium	A. Miyahara - Fuel Cell Development Information Center ...	166
Information		
	S. Nagata - Fuel Cell Development Information Center ...	171
Postscript		
	Y. Shirasaki - The Japan Gas Association ...	175
