The Journal of Fuel Cell Technology

Contents

Foreword

■ Beyond the Absolute Zero Point

M. Umeda – Professor, Nagaoka University of Technology…… 1

Special Issue

To Consider Future Energy Toward Reconstruction after the Tohoku Earthquake.

■ The Energy Policy after the Fukushima Nuclear Accident and the Japanese Economy

T. Kikkawa – Hitotsubashi University…… 6

■ A Prospective View on Next-Generation Energy Systems and Power Generation Devices

T. Takahane – Fuji Keizai Co., Ltd.……12

■ Status report and View in the future of Fuel Cell system for Independence

M. Kadowaki, J. Jun Akimoto – ENEOS CELLTECH Co., Ltd.……19

■ Development of New Residential Fuel Cell System "ENE FARM

H. Kan, T. Urata, H. Kusakabe, Y. Kawaguchi, M. Katou, H. Sano – Panasonic Co.,Ltd……25

■ Development of Solar Hydrogen Station (SHS2) with a “High differential pressure Electrolyzer”

M. Okabe – Honda R&D Co., Ltd.……30

■ CHP System and Advanced Energy Applications

I. Sugimoto – Advanced Cogeneration and Energy Utilization Center JAPAN……37

■ Development of SOFC Triple Combined Cycle System

M. Nishiura, K. Miyamoto – Mitsubishi Heavy Industries, Ltd.……43

■ Development of Supercritical CO₂ Gas Turbine Power Generation system

H. Hasuike and K. Ogawa – The Institute of Applied Energy

M. Utamura, Tokyo Institute of Technology……48

■ Action to “Smart xevo Eco project” of DAIWA House

T. Ikeda – DAIWA HOUSE Industry Co.,Ltd.……55

■ Creating Smart Mansion and New energy system

T. Arikawa – Lemogas Co, Ltd.……61

Topics

■ Development of YAMAHA Portable DMFC Power Supply

S. Adachi – YAMAHA MOTOR CO., LTD.……67

● The cover is
"Solar Hydrogen Station(SHS2) with
high differential pressure electrolyzer"
(Courtesy of Honda R&D)

Vol.11 NO.2 Autumn 2011

■ **Selective reduction of layers and oxygen diffusion behaviors in oxide artificial superlattice thin films**

Y. Shimakawa – Kyoto University & CREST……72

■ **Power Generation with High Fuel Utilization in Intermediate Temperature Operating SOFC Unit
Based on Anode-Supported Planar Cell**

K. Mizuki, M. Yokoo, H. Orui, K. Watanabe, K. Hayashi
– NTT Energy and Environment Systems Laboratories……79

Column

■ **Fuel Cells and Me**

K. Okano – Kyushu University……84

Contribution

■ **Toward Practical Application of Fuel Cells and Accumulation & Cultivation of Related Industries**

T. Chida – YAMANASHI Prefectural Government, Industry and Labor Department……86

Information

Fuel Cell Development Information Center……90

Postscript

Y. Takagi – Editorial Committee Member……93
