The Journal of Fuel Cell Technology

Contents

Foreword

■ The Future of Residential Fuel Cell Systems

K. Mori - The Japan Gas Association 1

Special Issue Durability of PEFC and Related Technologies

■ Degradation Phenomena and Related Research with Regard to PEFC.

K. Yasuda - National Institute of Advanced Industrial Science and Technology 6

■ An Overview of Fundamental Research on Degradation of PEFC Stacks

Z. Ogumi - Kyoto University
K. Tanimoto - National Institute of Advanced Industrial Science and Technology 11

■ Mechanism for Degradation of Pt-Ru Anode Catalyst in PEFCs

M. Inaba, H. Yamada and M. Sugishita - Doshisha University 17

■ The Effects of Cell Operating Conditions for Agglomeration, Dissolution and Migration on the Stability of Carbon Supported Pt Catalysts

S. Morikawa and S. Ohyagi - KRI International Inc.
C. Kaito - Ritsumeikan University 22

■ Electrochemical Stability of Carbon Materials under PEFC Environment

T. Kinumoto, Hyun-Suk Choo, Z. Ogumi - Kyoto University 28

■ Durability by Ex-situ Test of Mechanical Strength of Molded Carbon Bipolar Plate

N. Iwashita - National Institute of advanced Industrial Science and Technology 35

■ Effects of Retention Potential on Corrosion Rate of Carbon Materials

Z. Siroma - National Institute of Advanced Industrial Science and Technology 39

■ Carbon Corrosions with Start-and-Stop Operations for PEFCs

H. Fukumoto - MITSUBISHI Electric Corp. 43

■ Development of Highly Durable PRIMEA

T. Suzuki - JAPAN GORE-TEX INC. 48

■ Study of the Perfluorosulfonic Acid Membrane Degradation and Development of Highly Durable Nafion Membrane

R. Iwata and M. Motomatsu - Du Pont Kabushiki Kaisha 52

■ Development of Highly Durable MEA for PEFC Under High Temperature and Low Humidity Operations

E. Endoh, H. Kawazoe, S. Hommura - Asahi Glass Research Center 56

■ Development of Low-cost High Durability Hydrocarbon Membrane for FCV

M. Kidai - Toray Industries, Inc. 61

■ Visualization of Water Droplets in a PEFC Cathode of PEFC under Degradation Condition for 4000 Hours

T. Murahashi - Fukui University of Technology 64

■ Study of Current Distribution in a Cell and Local Cell Performance Degradation

Y. Nakamori - Toshiba Fuel Cell Power Systems Corp. 68

■ Study of Water Production and Transport in a PEFC Using Optical Single Cells

S. Yoshioka and H. Shigeoka - Mitsubishi Electric Corp. 73

■ MRI Monitoring as a Diagnostic Tool for Water Content Distribution in PEFC

S. Tsushima and S. Hirai - Tokyo Institute of Technology 77

■ Diagnostics of PEFC Running Condition Using Magnetic Sensor and Laser Interferometer

M. Izumi - The University of Kitakyushu
Y. Gotoh - Kurume National College of Technology 83

Topics

- **Development of H₂-PSA Using CO-adsorbent**
N. Nakao, T. Yamashita, A. Fujisawa and K. Yura - Kobe Steel, Ltd. 88
- **Development of New Proton Conductive Composites via Surface-Modification of Inorganic-Organic Hybrid Particles for Fuel Cells**
Y. Daiko, M. Sakai and A. Matsuda - Toyohashi University of Technology 92
- **Catalysts for Conversion of Cellulose into Sugar Alcohols**
A. Fukuoka - Hokkaido University 98
- **Long-term Operation of Bench-scale MCFC over 50,000 Hours**
H. Morita - Central research Institute of Electric Power Industry ... 102
- **Totalized Hydrogen Energy Utilization System for Building**
H. Ito - National Institute of Advanced Industrial Science and Technology
H. Okamoto and Y. Kawakami - Takasago Thermal Engineering Co., Ltd. ... 106
- **Technology of Hydrogen Production by Thermo-Neutral Reforming(TNR) Method**
S. Narita - Air Water Inc. ... 114
- **Development of 1kW-class Fuel Cell System Equipped with Kerosene hydrogen Two-way Burner**
T. Suganuma - Nippon Oil Corp. ... 118

Contribution

- **Report on Hachinohe Micro Grid**
M. Ishida - University of Tsukuba ... 122

Reportage

- **The 22nd International Battery, Hybrid and Fuel Cell Electric Vehicle Symposium**
—Exposition & Ride and Drive—
S. Shiozawa - FCDIC ... 128

Report

- **Fuel Cells Science & Technology 2006**
S. Nagata - Fuel Cell Development Information Center
T. Suzuki and T. Horita - National Institute of Advanced Industrial Science and Technology
A. Kawamura - Tokyo Gas Co., Ltd.
Y. Mugikura - Central Research Institute of Electric Power Industry
O. Okada - Renaissance Energy Research Corp. ... 130
- **2006 Fuel Cell Seminar and Visit of Related Businesses**
A. Miyahara - FCDIC ... 142

Information

S. Nagata - FCDIC ... 147

Postscript

N. Fujiwara - Ishikawajima-Harima Heavy Industries Co., Ltd. ... 151
